Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on May 28, 2002.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11; 453 O.G. 213.

DETAILED ACTION

This action is responsive to applicants' amendment and response received May 28, 2002.

Claims 1-11 are currently pending.

Election/Restrictions

1. Applicant's election with traverse of species I in Paper No. 11 is acknowledged. The traversal is on the ground(s) that all claims could be examined together. This is not found persuasive because the cellulose ethers are nonionic, cationic, and anionic and are therefore not easily searched together.

The requirement is still deemed proper and is therefore made FINAL.

2. Newly submitted claim 11 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The elected cellulose ethers have been removed from claim 11.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 11 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Art Unit: 1751

Claim Objections

3. Claim 1 is objected to because of the following informalities: In line 2 of claim 1, an alkali metal is cited as a builder. This is believed to be an error of transcription. Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-4, 9, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Harmalker et al, US 5,308,513.

Harmalker et al teach fabric conditioning aqueous liquid emulsions which are wash cycle additives for through the wash use (see abstract). An example of such a composition is a liquid emulsion containing hydroxyethylcellulose polymers and a nonionic surfactant which is added to a granular detergent containing surfactants and pentasodium tripolyphosphate, sodium pyrophosphate, and sodium carbonate as builders (see examples 2 and 4). As this reference meets all material limitations of the claims at hand, the reference is anticipatory.

Applicants have traversed this rejection on the grounds that the compositions of Harmalker et al are fabric conditioners, and therefore do not meet the laundry detergent limitation

Art Unit: 1751

of the claims. The examiner notes however, that these fabric conditioners are designed to be added to a wash liquor, as stated above, and so the final result is a laundry detergent containing all the components of the present claims. Accordingly, the rejection is maintained.

6. The rejection of claim 1 under 35 U.S.C. 102(b) as being anticipated by Elliott et al, WO 96/17917 is withdrawn in view of applicants' amendment and response.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
